

FLAKES

& CEREAL PRODUCTS

One of the largest exporter of cereal flakes in the European Union with significant experience in private labels. The flake production plant produces rolled grain flakes of various thicknesses, as well as organic products, in accordance with the client's wishes.

To ensure that the raw materials used in our products are of the highest quality we source grain within a 50 km radius from our plant. 70–80% of that is grown and supplied by local farms.
